

COVER LETTER

In the Cover letter/other notes Section: Copy and paste your cover letter of 750 words that answer the following questions in list format: What are your primary research interests and why do you think they are important? How would participating in the AI Residency Program help you to explore your research interests and achieve your goals? Give an example of an open-ended research question or project youve worked on. What made it challenging and how did you overcome those challenges? Alternatively, summarize and critique a machine learning paper you have read that you found interesting. **The cover letter is mandatory for the program even though it is optional, as noted on the website, for other jobs at Google** In the Education Section: attach a current or recent unofficial or official transcript in English. Under Degree Status, select Now attending to upload a transcript.
